NEW YORK STATE FARM HOMES

No part of the west offers such an opportunity for farming or for good investment as Western New York. You can buy improved farm land: there at less than you can buy unimproved farms in the West. An improved New York farm means good buildings and plenty of them. It means orchards and vineyards. It means near towns, churches, schools and paved roads. The soil is fertile, producing big crops of alfalfa, clover, corn, oats, wheat, cabbage, beans, buckwheat and potatoes.

Ontario and Senaca counties are in the heart of the apple and graps belt. An orchard on every farm. Crops net \$50 to \$125 per acre. Appies this year produced 5 to 10 barrels to the tree. New York is producing one-seventh of the nation's apple crop. Sour cherries produce three tons and more to the acre, worth \$100 per ton. Peaches, pears and grapes pay a big profit. You can buy these farm and fruit lands at \$75 to \$125

Get near the world's greatest market and the saving in freight alone will make you a living. There is a constant demand for everything the farm produces. You make more money, live more comfortably, on a New York farm than in the undeveloped West. Investigate,

American Prices Too High as Compared with Foreign Marts.

Reduction in Premiums for Cash Corn is Expected if Weather is Payorable Toward Dislodging Country Holdings.

CORN INCREASE IS EXPECTED

OMAHA, Nov. 16, 1812.

It may be said that our wheat prices are still too high when those in other countries are considered. The United States has a large export surplus and it stands to reason that some of our wheat must be sold, even if we are obliged to shade the prices now being asked by Canada, Argentina, Russia and other exporting countries. Northwestern receipts are nearly three times larger than a year ago and in addition to this coines the news from Minneapolis that a number of the neils are going to close down next week. An advance in lake freights is always seen November I and the shipments of flour have been large because of this fact, Export business has been entirely neglected this last week. Wheat prices have been on a down grade for five continuous days and with one exception for eight days, and are off 9 cents since October 14. There has been an irregular break for thirty days, which is far above the average. Some traders figure that six to seven days has been the average break of recent years. When they run over nine days they have been known to over nine days they have been known to our line days they have been known to our line days they have been known to our nine days the province to the days to the nine ou OMAHA, Nov. 16, 1812. process to seven days has been the average preak of recent years. When they run over nine days they have been known to run sixteen, and when after extending beyond the latter, may run oven thirty tays. Practically every bushel of wheat held last night showed a loss as prices were the lowest of the season. Cash wheat helds lower

bears figure that if the cold weather should continue new corn re-celpts will be greatly increased after this week, and they expect a reduction in premiums for cash corn over the Decem-ber option. Prices are off from 5 to 6 cents in the last thirty days. The bears figure that the May option will eventu-ally drop to 5 cepts a bushel. Pit traders say that most of the buying by com-mission houses has ocen to take profits and there has been an enormous reduc-tion in the short interest in the last few days, and especially on yesterday's break as the short traders took their profits and are now waiting for something to raily the market. The sharp decrease in receipts is as a matter of course, due to the tailling off in shipments from the range cattle from the far west being according to all reports pretty well in. Corn fed cattle are beginning to arrive more freely, but the receipts are still moderate as it is early in the season.

Supplies of beef steers, both rangers and cornteds, were very meager throughout the whole week. As there was at the same time a good buying demand the market was active and prices on all de-23642c.

YOUNG MEN TO PERFORM TO RAISE CHURCH FUNDS

The Young Men's club will give a musical entertainment at the Creighton nustreets, for the benefit of the Holy Angela' church, Monday evening. December 2. Some time ago the same club played to a crowded house in the same building Since then several new and original features have been introduced into the show. Apparent weak points in the past performance have been so perfected that the show to be given on the above date will be a special treat, even for those who witnessed it before. There will be The tickets are 50 cents each and are or and the music departments of Hayden's

and even in luxury, it was simply nonsense for him to labor, too. It seems Haines has lost all desire for work, The deSousa-Haines marriage was solemnized in Paris two years ago. Halnes is now in London. Miss deSouss. is traveling in South Africa.

Twelve years ago Miss deSousa made her debut in Chicago, singing Alderman "Bathhouse John" Coughlin's "Dear Midnight of Love." Her success was almost instantaneous. In the years that followed she gained fame, starring for long runs in New York, Chicago and other cities, also in tours. Several times she visited Omaha, her old home, as a star. She last appeared here at Boyd's theater about four years ago. She was celebrity, and Omaha made the most of the opportunity to honor with entertainments and social courtesies ar Omaha girl who had "arrived."

In London and in Paris Miss deSouss repeated her successes in America. Until her marriage Miss deSousa had the reputation of a critic of love-making.

She critiched the methods of love-making of men of all nationalities except the Americans.

PROMINENT EDUCATOR IS STRONG FOR MEETING HERE

Never was a better thing done for Omaha than the getting of the Nebraska Teachers' association for two years, said a prominent educator of the state in Omaha Saturday. "And I am going to vote to return the association here next year. Of course, if I should make such an utterance publicly in regard to the benefit to Oniaha, many would regard it as unbecoming to the dignity of my profession, as primarily the teachers' association is for the benefit of the teachers and those whom they teach. But there is no association or organizaout the week and at the close they too are around 25 higher than at the close of last week and fully 50 higher than at the close of last week and fully 50 higher than at the close of last week and fully 50 higher than at the close of last week and fully 50 higher than at the close of last week and fully 50 higher than at the close sellers throughout the week and the desirable kinds have gradually firmed up so that at the present time they class be quoted 15525c higher than last week. The medium and trashy kinds have been a little slow and hard to move, but they too have shown improvement from day to day.
